It is estimated that [REDACTED] of the [REDACTED] of universal service funding received in 2014 was used to ensure and improve *service quality*. This ensures that the network is maintained and operated to provide telecommunications and information services as well as interexchange services and advanced telecommunications that are reasonably comparable to those services offered in urban areas and are available at rates that are reasonably comparable to rates charged for similar services in urban areas. Expenditures are not tracked at the wire center or census block level and are reported here on a total service area basis. We believe it is reasonable to conclude the same [REDACTED] of universal service funding received in 2014 will be used to ensure and improve service quality in 2015 as we complete our fiber to the home build.

It is estimated that [REDACTED] of the [REDACTED] of universal service funding received in 2014 was used to improve *service coverage* at wire centers served by our company for telecommunications and information services as well as interexchange services and advanced telecommunications (broadband). Due to these expenditures, [REDACTED] of households in our service area will have access to our broadband capable network as of July 1, 2015. Expenditures are not tracked at the wire center or census block level and are reported here on a total service area basis. We believe it is reasonable to conclude the same [REDACTED] of universal service funding received in 2014 will be used to improve service coverage in 2015 as we complete our fiber to the home build.

It is estimated that [REDACTED] of the [REDACTED] of universal service funding received in 2014 was used to improve *service capacity* at wire centers served by our company for telecommunications and information services as well as interexchange services and advanced telecommunications (broadband).
